Job Summary:
Financed by a contract between QREN and the University of Coimbra (UC), UC invites applications for 2 positions of fellowship of invited scientist to work in the project Aging, stress and chronic diseases at the Center for Neuroscience and Cell Biology of the University of Coimbra (CNC). The fellowships will be in the range of 2060 €/ month for a period of 6 months renewable up to a total of 24 months, including voluntary social and personal accidents insurances.

Description

Job Description and selection
The successful candidate should hold a PhD in Life or Health Sciences or related areas and have at least 2 years of post-doc training with documented experience in the scientific areas of the project. Preference will be given to candidates with: i) proven interdisciplinary background (supported by publications); ii) grant managing experience; iii) experience in training graduate students; iv) research activity in a foreign Research Institute of reference; v) clear plan of integration in this research project within CNC (Motivation Letter).

The candidate is expected to show willingness to develop scientific activities in tight collaboration with groups at CNC and to participate in post-graduate teaching and training, to allow for future applications supporting his/her insertion as a UC/CNC investigator. The selection will involve a curricular evaluation (AC) taking into account the curriculum (CV) and the fitting of the profile (PF) to the position. Candidates with the best evaluations will be called for an interview.

Applications should be sent by e-mail to Silvia Sousa silvia@cnc.uc.pt until the 20th of June, including a Motivation Letter, Curriculum Vitae with academic history, copy of degree certificates and contact of 2 referees. Candidates will be notified by e-mail.

Selection Committee:
Catarina Resende de Oliveira, Rodrigo Cunha, Cláudia Cavadas, João Laranjinha

Research Fields
Biological sciences

Career Stage
Early stage researcher or 0-4 yrs (Post graduate)
